

EUSA Statement on Florida Conference Site

The European Union Studies Association (EUSA), the premiere scholarly and professional association focusing on the study of the European Union and the process of European integration in the United States, condemns--in the strongest possible terms--acts by any government to discriminate against its citizens or strip them of fundamental civil rights. We issue this statement aware that our upcoming conference is scheduled for May 2022 in Miami, Florida, the site of recent anti-transgender legislation and sweeping voter suppression laws. Our contractual commitment was signed long before these measures that undermine democracy, equality under the law and human dignity were enacted -- measures that are antithetical to our institution's values. Moving forward, we commit to holding conferences in destinations that share our values.
